Word Count: 190

“Have you ever seen a photograph of Earth taken from space?” 11  
asked Aunt Cammy. “You see that Earth is mostly blue because most 23  
of Earth is water. The mighty oceans cover a large part of Earth.” 36

“I’d like to see the ocean,” Keith said. “Can we go?” 47

Aunt Cammy said, “Great idea! Let’s take a ‘beauty walk’ at the 59  
beach. We’ll stop and look at things we find beautiful. Too many times 72  
we just walk right by.” Keith ran to get his bathing suit. 84

When they got to the beach, Aunt Cammy said, “Isn’t the white 96  
sand beautiful? It is smooth and sparkles in the sun like diamonds.” 108

Keith and Aunt Cammy walked along the ocean’s edge. Keith 118  
stopped and gazed at a seashell that was the color of the moon. 131

Aunt Cammy pointed to a starfish. Keith bent down. Suddenly, a 142  
wave washed it away! Aunt Cammy grabbed Keith’s arm so he wouldn’t 154  
wash away, too. 157

They played in the surf, sat in the sun, walked, and looked. They 170  
talked about each beautiful thing they found. They didn’t pick anything 181  
up. They left things for someone else to enjoy. 190
